Weight	30 lbs (13.6 kg)

Introducing the TP-TANK: a portable, recirculating coolant system for TERAPRESS mounting presses. With a built-in heat exchanger and programmable thermostat, it ensures optimal coolant temperature for consistent results.

This system ensures reliable cooling without relying on building utilities like water or sewage, offering both economic and environmental advantages.

The TP-TANK is easy to use and operate, making it the perfect solution for labs seeking smarter, sustainable processes. Upgrade your workflow with the TP-TANK's innovative design and experience efficiency redefined!
